

Self-Weigh Procedure

This guide is to be used to self-weigh fish captured from December 16th to October 14th each competition year.

The GDFC allow Self-weighing of fish to be submitted to the GDFC that will go towards your overall yearly points tally and are eligible for every club category for the year with the exception of Champion Boat Category.

Self-weigh points can only be accumulated for The Champion boat on Club competition weekends that are held once a month.

Fish must be weighed on approved digital scales, photographed and presented as per photographs below (these can be purchased from the GDFC for \$30) Weigh bags are provided for free or you can purchase the same brand of scales from a tackle shop.

A total of two photos must be submitted for each fish one showing the fish in the weigh sling or the whole fish on the scale and one of the scales readout, please ensure the Scales digital readout is readable in the photo.

All photo submissions must be sent via txt or email to one of the following:

gdfccommittee@gmail.com

Barney: 0427778564

Michael: 0437705605

TXT message or email will include Fish photos and Anglers name per fish.

Lay your Fish in the Weigh bag or if keeping the fish hook through the Jaw:

Ensure your scale are set to zero before weighing a fish, if using the weigh bag, hook it on the scale and press to zero the reading.

1.

2.

Ensure the Whole Fish and scale are photographed – the scale must be readable when zoomed in.
